EXPERIENCE

Frontend Developer

Haddocksoft

August 2023 - December 2023, Sahiwal, Punjab, Pakistan

- I actively managed and updated 10+ live company websites using FileZilla for seamless file transfer and site maintenance.
- I crafted custom designs for 10+ projects, avoiding external libraries for enhanced page performance, leading to a 20% speed increase.
- I employ GitHub for project management, collaborating with team members by sharing and reviewing code, followed by committing changes for seamless development, resulting in a 20% decrease in development cycle time.

PROJECTS

Synchronus Chat App

github.com/Naeem-ur-rahman/chat-app-mern • August 2024 - September 2024

- MERN Stack, React, vite, Node.js, MongoDB, zustand, shadcn-ui, and socket.io, with an average message delivery speed of under 200 milliseconds. [Live Link](#).
- Implemented Direct Messaging, Channel Chat, User Authentication, File Sharing, and Profile Management. Achieved a 20% improvement in user engagement based on user feedback and session analysis.
- Backend on Railway and frontend on Netlify, managing traffic loads with a response time of under 1 second and ensuring 95% uptime during active usage.

Smart Transport System

August 2023 - June 2024

- Designed to streamline and manage the transportation process at the University, improving operational efficiency by 30%.
- Engineered the user interface and navigation patterns using React Native components, leading to a 25% increase in user engagement.
- APIs created using Express.js, facilitating smooth communication between the front end and back end. Implemented routes, middleware, authentication, and authorization mechanisms to enhance functionality and security, reducing security breaches by 20%.

Blogify

github.com/Naeem-ur-rahman/blogify • January 2024 - January 2024

- Build a robust Node.js web application, achieving a 90% understanding of essential features such as authentication, authorization, and MVC pattern.
- Includes user management functionalities, enabling users to create blogs and comments.
- Integrated file upload functionality using multer, allowing users to upload files to the server, which led to a 40% increase in user interaction and content diversity.

Trade Hub

github.com/Naeem-ur-rahman/Ecommerce-Store-Web-Technologies-Project • June 2023 - June 2023

- Developed an admin dashboard to efficiently manage inventory, track orders, analyze sales data, handle customer support, and manage user accounts, improving operational efficiency by 40%.
- Added detailed product information views, including images, descriptions, and pricing, leading to a 25% increase in product visibility and user engagement.
- Implemented a robust search functionality enabling users to find specific products based on keywords, reducing search time by 30%.

EDUCATION

Bachelor of Computer Science

COMSATS University Islamabad, Sahiwal Campus • Sahiwal, Punjab, Pakistan • 2024 • 3.68

- Awarded laptop on merit under the Prime Minister's Laptop Scheme 2023.

SKILLS

Languages: JavaScript, C++, Java, Python, PHP, SQL, HTML, CSS.

Frameworks/Libraries: React.js, Node.js, Express, React Native, Socket.io, Tailwind CSS, Redux, Zustand, Shadcn-ui.

Data/Tools: MongoDB, MySQL, Git, GitHub, Docker, VSCode, GraphQL, Rest API, JWT Authentication.

CERTIFICATIONS

Introduction to Git and GitHub

Coursera • 2023

- Understanding Git and GitHub enables tracking and management of code changes, essential for organized development workflows. Mastery of GitHub's features like pull requests and issues fosters effective teamwork and participation in collaborative projects.
